

## SharePoint on AOL

You may experience problems logging on SharePoint if you use AOL as your Internet Provider.

Try the following work around:

Open AOL and minimize the browser.

Click on the Start menu and click on Internet Explorer.

Type in:

Studentportal.vbschools.com/students/ ##### (Your student number) in the Address box.

Log in with your student name and password at the authentication screen.

If this does not work, contact AOL.
